

BROAD AGENCY ANNOUNCEMENT (BAA)

"5G TO NEXT G"

Advanced Wireless Communications Open BAA

Focus Areas

- FA01 – Accelerate 5G Capabilities
- FA02 – Operate Through Untrustworthy 5G Networks
- FA03 – Innovate Beyond 5G (B5G)

Interest

The DoD has established the "5G to Next G" program to accelerate implementation of advanced wireless communications. The program uses a "crawl, walk, run" approach, proceeding from exploratory work, to early 5G-enabled prototypes, to advanced application prototypes and then full-scale implementations to achieve the individual project outcomes that are enabled by 5G technology. The 5G to Next G program has selected four DoD sites to conduct 5G experimentation.

Eligibility

- Open to members of academia, industry and the research community worldwide
- Minority-Owned and Small Businesses are encouraged to apply

Important Dates

- White Paper Due Date *For FY21 Award- March 19, 2021
- White Paper Due Date for FY22 Award- No later than *1 year from BAA release*
- Full Proposal Due Date- Within 30 days of Notification of Interest

See BAA N6523621S0001 for full details.
